PROJECTS

CampusConnect - Developer *July 2026 - August 2026*

- Collaborated in a 3-person team to build a campus platform using React, TypeScript and Convex, combining student-faculty communication, course and club spaces, wiki-style course knowledge pages, a marketplace, and a real-time event calendar.
- Developed a Discord-style interface and interest-based student matching to connect new university students.
- Structured the platform so each university runs its own instance, with support for most North American universities.

Expense Tracker *January 2026*

- Built a Python-based expense tracker using Tkinter that allows users to log expenses, store data in CSV files, and view spending history in a graphical interface.
- Implemented basic data validation and spending analytics with visual charts using Matplotlib to help users understand expenses by category.

SKILLS

Technical: Microsoft Excel, Bloomberg Terminal, Python (Matplotlib, Tkinter), Java, TypeScript, React, Claude Code
